WELCOME TO FIFTH GRADE

Dear Fifth Graders,

We look forward to the opportunity of having you in our classes in September as we begin a new school year. Mr. Larson will teach fifth grade math, and Mrs. Olsen will teach fifth grade reading. Of course you know that more will be expected of you as you are asked to accept the added responsibilities of being fifth graders. We're confident that as fifth graders you will be able to succeed if you do your best. One way to help ensure success is to continue reading regularly throughout the summer, and know your multiplication and division facts solidly through the 12's.

Have a safe, fun summer, and we'll see you September 1st! Mr. Larson & Mrs. Olsen
